Section 4071. Liabilities not to exceed revenue.

4071. The board must not, for any purpose, contract debts or liabilities, in any manner or for any purpose, which exceed in any fiscal year the income and revenue provided for such year, except as permitted by the constitution. It shall be the duty of the auditor, at the commencement of each regular session of the board, to lay before it a statement prepared by him of the aggregate amount of allowance against each fund, and of salaries and liabilities fixed by law, paid or payable therefrom since the beginning of the fiscal year, together with a statement of receipts of each fund for that portion of the year already elapsed, and an exact estimate of the revenue for the remainder of the year apportioned to the different funds, based upon the receipts for the corresponding portion of the preceding year. Whenever the board shall have levied the state and county tax for the fiscal year, the auditor's estimates for the remainder of the year shall, as to receipts from property tax, be based upon the assessment roll and tax levy, deducting ten per cent for the anticipated delinquencies. Up to and including the 1st day of January in each fiscal year the board shall have no power for any purpose to contract debts or liabilities in any manner or for any purpose nor to make any allowances against any funds, which with all the debts and liabilities previously incurred and with all allowances previously made, and salaries and liabilities fixed by law payable therefrom, shall exceed seventy per cent of the auditor's estimate of revenue for the year, except to build or repair roads and bridges which have been destroyed or made impassable by flood or fire. Any debts or liabilities contracted in any manner or for any purpose and any allowances made contrary to the provisions of this section shall be null and void and the auditor shall not draw his warrant therefor nor the treasurer pay the same. When several allowances are made on the same day, they shall be deemed to have been made in the order in which they are entered in the "allowance book," and shall be certified in that order by the auditor.

4073. Whenever the board of supervisors shall enter into a contract for the erection, construction, alteration, or repair of any public building, bridge, or other structure, such contract shall not be altered or changed in any manner, unless they shall, by a vote of two thirds of their number, and with the consent of the contractor, first so order. And whenever any such change or alteration is so ordered, the particular change or alteration shall be specified, in writing, and the cost thereof agreed upon between the board and the contractor. In no case shall the board pay or become liable for any extra work done on, or extra material furnished for, such building or structure.

4075. The board of supervisors must not hear or consider any claim in favor of any public officer, person, corporation, company, or association against the county, nor shall the board credit or allow any claim or bill against the county or district fund, unless the same be itemized, giving names, dates and particular services rendered, character of process served, upon whom, distance traveled, where and when, character of work done, number of days engaged, supplies or materials furnished, to whom, and quantity and price paid therefor, duly verified to be correct, and that the amount claimed is justly due, and is presented and filed with the clerk of the board within a year after the last item of the account or claim accrued. If, in case of any claim which requires itemizing, the board do not hear or consider the same because it is not itemized, they shall cause notice to be given to the claimant or his attorney of that fact, and give time to have the claim itemized and reverified.

4076. No account shall be passed upon by the board, unless made out as prescribed in this and the preceding section and filed with the clerk three days prior to the time of the meeting of the board at which it is asked to be allowed.

4077. When the board finds that any claim presented is not payable by the county, or is not a proper county charge, it must be rejected; and said rejection shall be plainly indorsed on said claim; if they find it to be a proper county charge, but greater in amount than is justly due, the board may allow the claim in part, and draw a warrant for the portion allowed, on the claimant filing a receipt in full for his account. If the claimant is unwilling to receive such amount in full payment, the claim may again be considered at the next regular session of the board, but not afterward.

4078. If the board refuse or neglect to allow or reject a claim or demand for ninety days after the same has been filed with the clerk, such refusal or neglect may, at the option of the claimant, be deemed equivalent to a final action and rejection on the ninetieth day, and a claimant dissatisfied with the rejection of his claim or demand, or with the amount allowed him on his account, may sue the county therefor at any time within six months after the final action of the board, but not afterward, and if, in such action, judgment is recovered for more than the board allowed, on presentation of a certified copy of the judgment, the board must allow and pay the same, together with the costs adjudged; but if no more is recovered than the board allowed, the board must pay the claimant no more than was originally allowed.

4079. All claims against the county, presented by members of the board of supervisors for per diem and mileage, or other service rendered by them, must be itemized and verified as other claims, and must state that the service has been actually rendered, and before allowance such claims must be presented to the district attorney, who must indorse thereon, in writing, his opinion as to the legality thereof. If the district attorney declare the claim, or any part thereof, illegal, he must state specifically wherein it is illegal, and the claim, or such part, must then be rejected by said board.

4087. The general fund shall consist of moneys received into the treasury and not specially appropriated to any other fund.

ARTICLE XIII.

ISSUANCE OF BONDS.

Section 4088. Issuance of bonds for certain purposes; proceedings on.

4088. Any county having an outstanding indebtedness, evidenced by bonds or warrants thereof, may refund such indebtedness and issue bonds of the county therefor, and any county may incur or refund a bonded indebtedness for any purposes for which the board of supervisors are herein authorized to expend the funds of said county, or for the purpose of building or constructing roads, bridges or highways. Such indebtedness shall be refunded or incurred in the following manner, to-wit: The board of supervisors thereof shall by order specify the purpose for which the

indebtedness is to be incurred, the amount of bonds which they propose to issue, the rate of interest, and the number of years, not exceeding forty, the whole or any part of said bonds are to run, and shall further provide for submitting the question of the issuance of said bonds to the qualified electors of the county at the next general election, or at a special election to be called by the board for that purpose, and the words to appear upon the ballot shall be, "Bonds—Yes," and "Bonds—No," or words of similar import, together with a general statement of the amount and purpose of the bonds to be issued. Several separate propositions may be submitted at the same election. If a special election is called, none but qualified voters of the county shall be permitted to vote thereat, and it shall be held as nearly as practicable in conformity with the general election law of the state; *provided, however*, that for the holding of such special election the board may form bond election precincts by adopting the precincts established for general election purposes, or by consolidating such precincts inside of incorporated cities and towns, to a number not exceeding six in each bond election precinct, and shall appoint only one inspector, two judges and one clerk for each bond election precinct. Notice shall be given of such election by publication in one or more newspapers published in the county, once a week for at least four weeks, or daily for not less than thirty days, prior to said election. If there be no such newspaper, then by posting the same conspicuously in five public places in said county at least thirty days before said election. Such notice must contain the time and place or places of holding such election, the names of election officers to conduct the same, the amount and denomination of the bonds, the rate of interest to be paid, and the number of years, not exceeding forty, the whole or any part of such bonds are to run. If any election officers so named in such notice are not present at the opening of the polls, the electors present may appoint election officers to take the place of such election officers so absent. If two thirds of the electors of the county voting at such an election shall vote in favor of issuing such bonds, the board must proceed to issue the amount of bonds specified; *provided*, that the total amount of bonded indebtedness shall at no time exceed five per cent of the taxable property of the county, as shown by the last equalized assessment book thereof. This limitation shall not apply to bonds which may be issued to refund an indebtedness existing January first, eighteen hundred and eighty. The board of supervisors, by an order entered upon its minutes, shall prescribe the form of said bonds, and of the interest coupons attached thereto, and fix the time when the whole or any part of the principal of said bonds shall be payable, which shall not be more than forty years from the date thereof; and said board may also, at their option, by a provision in such bonds, make such principal payable on or before a specified date, at the pleasure of the county. Said bonds may be issued in denominations not to exceed one thousand dollars and not less than one hundred dollars; principal and interest payable in gold coin of the United States, either at the treasury of said county, or at such place within the United States as such board may designate, or both at such treasury or such designated place, at the option of the bondholder. Interest on said bonds shall not exceed six per cent per annum, payable annually or semi-annually, as said board may designate. Said bonds shall be signed by the chairman of the board of supervisors, and attested by the auditor of said county, and have the seal of the board of supervisors attached, and said coupons shall be signed by said auditor by original or lithographed fac simile signature; and said bonds shall be sold at the times, in the amounts and in the manner prescribed by said board of supervisors, but for not less than par. The board of supervisors, at the time of making the next general tax levy after incurring the indebtedness of any bonds issued under the provisions of this title, and annually thereafter until all of said bonds are paid, or until there shall be a sum in the treasury of the county set apart for that purpose sufficient to meet all sums coming due for principal and interest on such bonds, must levy a tax for that year upon the taxable property of said county for the interest and redemption of said bonds, which shall be in addition to all other taxes, and such tax must not be less than sufficient to pay the interest on said bonds, and such portion of the principal, if any, as is to become due before the time for making the next general tax levy, and in any event must be sufficient to raise annually for the first half of the term said bonds have to run, a sufficient sum to pay the interest thereon; and during the balance of the term sufficient to pay such annual interest, and to provide annually a proportion of the principal of said bonds equal to a sum produced by taking the whole amount of said bonds outstanding and dividing it by the number of years said bonds then have to run. And the board of supervisors, before or at the time of issuing said bonds by ordinance shall provide for the levy of an annual tax sufficient to effect the objects of this provision. Such tax, when collected, shall be paid into the treasury of the county, and used solely to pay the interest and principal of said bonds as they respectively become due.

The revenue derived from the sale of said bonds shall be applied to the purpose specified in the order of the board, and no other. Should there be any surplus, it shall be applied toward the payment of said bonds. The board of supervisors of any county can contract a bonded indebtedness for county purposes only as in this title provided.

In issuing bonds under this title, the board of supervisors may, at its option, use the following form of bond and coupon:

If the board of supervisors of any county which has issued bonds under the provisions of this title shall fail to make the levy necessary to pay such bond or interest coupons at maturity, and the same shall have been presented to the county treasurer and the payment thereof refused, the owner may file the bond, together with all unpaid coupons, with the state controller, taking his receipt therefor, and the same shall be registered in the state controller's office; and the state board of equalization shall, at their next session, and at each annual equalization thereafter, add to the state tax to be levied in said county, a sufficient rate to realize the amount of principal or interest past due and to become due prior to the next levy, and the same shall be levied and collected as a part of the state tax and paid into the state treasury and passed to the special credit of such county as bond tax, and shall be paid by warrants, as the payments mature, to the holder of such registered obligations, as shown by the register in the office of the state controller, until the same shall be fully satisfied and discharged, any balance then remaining being passed to the general account and credit of said county.

From the first publication or posting of such notice, such warrants cease to draw interest.

All said moneys must be kept in a separate fund.

4116. If the money in the treasury is demanded within six years, by the legal representatives of the decedent, the treasurer must pay it to them, after deducting the fees and expenses of the coroner, and of the county, in relation to the matter, or the same may be so paid at any time thereafter, upon the order of the board of supervisors.

4117. The treasurer must keep all moneys belonging to this state, or to any county of this state, in his own possession, until disbursed according to law. He must not place the same in the possession of any person, to be used for any purpose; nor must he loan, or in any manner use, or permit any person to use the same, except as provided by law; but nothing in this section prohibits him from making special deposits for the safe-keeping of the public moneys; but he shall be liable therefor on his official bond.

4118. Whenever an action, based upon official misconduct, is commenced against any county treasurer, the supervisors may, in their discretion, suspend him from office until such suit is determined, and may appoint some person to fill the vacancy, who shall qualify and give such bond as may be required by the board of supervisors.

4119. In case of the death of any county treasurer, his legal representatives must deliver up to the person appointed to fill the vacancy occasioned by such death, all official moneys, books, accounts, papers, and documents which are or may come into their possession.

Senate Bill No. 793—An Act to authorize the settlement of an existing controversy between the United States of America and State of California, and making an appropriation to carry out the provisions of said Act.

During second reading of bill, the following amendment was submitted by the committee:

Strike out all after the title and insert as follows:

WHEREAS, The Federal Government claims that certain mistakes have been made in the past wherein and whereby the State of California has received and there has been listed to the State 40,000 acres or thereabouts of the public domain in excess of the just amount of lands that the State of California was entitled to under the grant in lieu of sixteenth and thirty-sixth sections, and that the State of California should restore to the United States an area equal to such excess listings to be taken from the sixteenth and thirty-sixth sections within forest reservations; and

WHEREAS, The State maintains that such claim is barred by the provisions of the Act of Congress of March 1, 1877, found in Volume 19 of the United States Statutes, page 287, confirming the title of the State to selections listed prior thereto, and also by the Act of Congress of March 3, 1891, found in Volume 26 of the United States Statutes, page 1095, limiting the time within which the United States can begin suits to vacate and annul patents; now, therefore,

The people of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. The Surveyor-General of the State of California is hereby authorized, on or before July 1, 1907, to enter into a stipulation with the Secretary of the Interior of the United States of America, which shall provide that the question as to whether

or not the United States is now entitled under the laws of the United States to claim anything of the State of California by virtue of such previous listings, shall be submitted to the Attorney-General of the United States for his opinion, and if the opinion of that official is rendered in favor of the contention of the State of California, that then, and in that event, such opinion shall be final, and shall be binding upon the United States of America.

SEC. 2. If, on the other hand, the opinion of the Attorney-General of the United States shall be adverse to the contention of the State of California, either in whole or in part, then, and in that event, the Surveyor-General of the State of California is hereby empowered to make a report of the facts concerning said controversy to the Governor of the State of California and to the Attorney-General of the State of California, and present with such report a copy of the opinion of the Attorney-General of the United States; thereafter the Surveyor-General of the State of California and the Governor of the State of California and the Attorney-General of the State of California are authorized and directed to make such examination of the law and the facts as will enable them to determine whether the opinion of the Attorney-General of the United States is well founded in whole or in part; if they find that the opinion of the Attorney-General of the United States is well founded in whole or in part, then the Surveyor-General, as Register of the State Land Office, shall prepare a patent in the name of the State of California in favor of the United States of America to such portion of the sixteenth and thirty-sixth sections contained in the San Jacinto Forest Reserve as will equal in area the number of acres so ascertained and determined to have been unlawfully listed, and said patent shall be executed by the same officers and in the same manner as other patents are executed, and the Register of the State Land Office shall record said patent in his office, and thereafter shall cause the same to be delivered to the Secretary of the Interior, at Washington, in the District of Columbia.

SEC. 3. Until such controversy is determined, in whole or in part, all of the provisions of Chapter I, Title VIII, Part III of the Political Code are hereby suspended as to all of the lands embraced in the San Jacinto Forest Reserve for which application to purchase has not been accepted and filed prior to February 14, 1907.

In the event that the said opinion of the Attorney-General of the United States is rendered in favor of the contention of the State of California, or if the Secretary of the Interior shall fail, on or before July 1, 1907, to enter into the stipulation mentioned in Section 1 of this Act, or if in the opinion of the Governor and Attorney-General and Surveyor-General of this State the claim of the United States is not well founded, either in whole or in part, then this section shall immediately cease to be operative. In the event that the opinion of the Attorney-General of the United States is unfavorable to the contention of the State of California, either in whole or in part, and said controversy is thereafter considered by the State officials as herein set forth, and any patent is thereafter executed conveying to the United States of America certain lands, then all the provisions of this section shall cease to be operative when said patent is recorded in the office of the Register of the State Land Office.

SEC. 4. Before the Surveyor-General, as Register of the State Land Office, delivers to the United States of America any patent as herein provided, he shall enter into such stipulations with the Secretary of the Interior as may be necessary and proper to obtain a ruling from that officer upon all State selections, heretofore made and now pending in the office of the Commissioner of the General Land Office, for lands in lieu of the sixteenth and thirty-sixth sections.

SEC. 5. For the purpose of carrying out the provisions of this statute the sum of \$5,000.00 is hereby appropriated out of any money in the State treasury not otherwise appropriated, and the State Controller is hereby authorized to draw his warrant therefor, and the State Treasurer is hereby authorized and directed to pay said warrant.

ON STATE PRISONS AND REFORMATORY INSTITUTIONS.

ASSEMBLY CHAMBER, SACRAMENTO, March 8, 1907.

MR. SPEAKER: Your Committee on State Prisons and Reformatory Institutions beg leave to report that in compliance with the resolution adopted by the Assembly, they have visited the State School at Whittier, the Preston School of Industry, the State Prison at San Quentin, and the State Prison at Folsom. They have thoroughly inspected the same, and beg leave to make the following report and recommendations:

Whittier.

We find that the school at Whittier is being run in a very satisfactory manner. The inmates seem to be cheerful and happy, and are being taught those things which will be of benefit to them upon the expiration of their terms. The boys are being taught, so far as possible, the different trades. There is quite a number of them being used upon the farm, and they seem to enjoy their work, which is giving them an insight into one of the most useful occupations that a boy could possibly have.

We wish to speak especially of the dairy, which has been brought up from almost nothing to a finely managed herd of milch cows. They are now producing nearly all of the milk and butter necessary for the institution. It is clean and well managed, and when they have completed their new milk and butter room, they will be in better shape to care for the products of the dairy.

The institution is badly in need of a new manual training department, but owing to the great demand upon the treasury, we do not feel that we could recommend the building and equipping of this new department at this session, but believe it absolutely necessary in order to make the school complete and give the boys the training which could be had in a department of this kind. The hospital that was asked for is also badly needed, but owing to the same reason, we felt that we were not justified in recommending it at this session, but hope that at no distant future it may be added to the institution.

New hose for additional fire protection is badly needed, and we most respectfully recommend that it be allowed at this session, as without it they are practically without local fire protection. We wish especially to call attention to the printing department. We find that the boys take a very active interest in this class of work, and are looking for a larger opportunity in this direction, and would most respectfully recommend that some of the work in the different institutions, such as the State normal schools, etc., be allowed to have their work done at this place, as their work compares very favorably with that done at the State Printing Office. It would save the State considerable money, and at the same time give the boys an opportunity of perfecting themselves in this class of work.

One of the greatest problems at this institution is the sewage. It is now allowed to flow over the land adjacent to the school, and there have been many complaints from time to time of its finding its way on to neighboring property, and we feel that the request of the board of directors for additional land is a valid one, and the State would make no mistake in purchasing the piece offered to them, as it would be a source of revenue and would solve the problem of sewage water. The recent outbreak of typhoid fever in the institution was directly traceable to the sewage, and resulted in a number of cases, although we are informed that none of them proved fatal. They are now installing the septic-tank filtration system, and believe that it will in a great measure lessen the danger which has been such a menace to the institution.

The girls' department seems to be managed in a very satisfactory manner, and the young ladies are being taught all those things which seem so useful for a young lady to know that may put her in a position to do for herself when she finds her way out into the world again. This department is neat and clean. The girls are taught the ordinary studies that are taught in school. Many of them are musical and are being taught the piano, as well as vocal music. They seem to be happy and contented, and

we believe that it is one place where a girl who has no friends can find sympathy and kindness.

The request of the board that a parole officer be allowed them, we believe is a good move, and would be the means of keeping many of the boys and girls who leave the institution, in the right path. As it is now, when a girl or boy leaves, there seems to be no one to whom they can look for sympathy, but soon find themselves back in the old environments; therefore they soon are in the same position oftentimes as when they entered the institution; but with a parole officer a boy or girl could be placed in a home and looked after, and if they were not suited to the place, they could be changed, and we sincerely hope that this may be brought about.

We believe that the board and all its officers are working for the very best interests of the boys and girls who are placed in their charge, and no doubt are sacrificing much in their interests.

Preston School at Ione.

On Saturday and Sunday, February 9th and 10th, your committee visited the Preston School of Industry, situated near the Town of Ione, in Amador County. The principal purpose of this visit was to gain information as to the necessity of making appropriations asked for in behalf of this school.

The committee was shown through the Trades Building. This building was burned a few years ago, but has been rebuilt and an addition added thereto. The equipment of this building is, however, incomplete, and that further equipment is needed for properly conducting that department of the work at the school, was very evident. An appropriation of \$5,000.00 is asked for this purpose. It is, however, the belief of the committee that \$3,000.00 would properly finish the building.

Two years ago an appropriation was made for the purpose of building an assembly hall at the Preston School. By some oversight, the amount appropriated could not be used to construct this building with the help of the boys of this school, but had the construction of the building been undertaken at that time, the entire work would necessarily have had to be let out at contract, as the statute requires. At this session of the Legislature, however, a bill has been introduced, excepting this appropriation from the operation of the statute requiring the work to be let out at contract, and construction of this building will soon commence with the help of the boys of the school. The appropriation of \$10,000.00 made two years ago will be insufficient for the completion and furnishing of the building, therefore \$5,000.00 additional is asked for. This latter appropriation is undoubtedly necessary for the proper completion of the proposed work.

The necessity for a cold-storage plant at the school is also apparent. During the past year the sum of \$800.00 has been expended for the ice for use at the school. The sum asked for to be used in the construction of this plant is \$2,500.00. It can be easily seen that this amount would be profitably invested. As the school has its own water power, the expense of running the plant would be very light. With a cold-storage plant, the dairy products of the State farm could be more advantageously handled, and the farm could furnish a sufficient supply of meat for the school the year around.

Some repairs to the buildings at the school are necessary; the supply of bedding needs replenishing, and some new furniture must be purchased. The amount asked for to be used for this purpose is \$5,000.00. The committee, however, do not believe that such a large sum of money is required for the purposes specified.

The committee did not have time to inspect the pipe line, for the repair of which an appropriation of \$10,000.00 is asked. Upon conference with a member of the board of trustees of the school, it was learned that \$2,500.00 of this appropriation was intended to be used in the construction of a dam. In view of the heavy drain on the State treasury at the present time, it is thought best that the construction of this dam be postponed until a future time. The pipe line nevertheless, requires immediate repairing. The entire water supply of the school and farm is dependent upon this pipe line, and it is therefore highly essential that the pipe line be kept in good condition. The committee is informed that the pipe line at the present time is in a deplorable condition, which occasions much unrest to the trustees and officers of the school, and it may at any time, if not repaired, result in the water supply being cut off. It is, therefore, necessary that an appropriation of \$7,500.00 be made for the purpose of putting the water system in good condition.

The committee found some time to view and inspect the work of the boys generally, and were highly impressed with the good work which is being accomplished by the school. It is apparent that the purposes of the school are being thoroughly carried out, and the boys fitted for taking a useful part in the affairs of life. The boys themselves ought to come in for their share of commendation, for, as far as appearances are concerned, they certainly enter into the spirit of the work, in spite of the fact that they are there by compulsion.

The State Prison at San Quentin.

The crimes practiced in this institution, in our opinion, are a blot upon the fair name of California. In the first place, the institution is vastly overcrowded. All congregate together, with no privacy whatever. The boys of tender age, who should never have seen the inside of these gloomy walls, find themselves under the influence of aged and hardened criminals, and if there is a spark of reformation in this class of criminals it certainly will soon leave them. The cells are dark and gloomy, containing from three to fifteen or more inmates to a cell. We find that they are locked in their apartments at four

o'clock in the afternoon, with no air except what little finds its way through the small gratings of the iron door. This, we believe, is not only injurious to the physical body, but is degrading mentally. The Prison Directors claim that they are powerless to change this condition and if the bill, which has been introduced, should pass, requiring the segregating of prisoners, that they would be helpless and could not carry out its requirements, but, after going over the situation carefully, we can not see why the large brick building known as the old furniture factory cannot be equipped with cells for the use of the younger and less hardened criminals. They may say that this is an unsafe building, but it has passed through the earthquake unharmed. It stands within the prison walls, and we are unable to see in what degree it is unsafe. This could be arranged with but very little cost, and would no doubt save a large number of young men from coming under the influence of the more hardened type of criminals. While it is true that they must come in contact more or less during working hours in the jute mill, yet while they are at work there is very little opportunity for them to converse, and if they were separated at the close of the day they would scarcely know with whom they had met during the day.

There seems to be a complaint regarding food, and some of the inmates informed us that they not only had an insufficient amount, but that the food was poor in quality. This, if true, ought not to be. While we believe that the food should be plain, yet it should be nourishing and in abundance, and I believe that if our State is paying for the very best quality that can be had in the market, the board should see that it is supplied. At the session of 1906 there were \$310,000 appropriated for new buildings. Before this new building can be erected it is necessary that a bill should be graded off. They are now removing this hill, but, judging from the work done in the past two years, it will be a number of years before a start can be made upon the new building, and in the judgment of your committee altogether too much money is being expended in the work of grading the hill. Below are the names and number of people employed upon this work:

STATE BOARD OF PRISON DIRECTORS' SALARIES.

For January, payable out of the appropriation for additional cells, State Prison, San Quentin.

	San Quentin	Folsom
W. R. Eckart, consulting engineer, January salary	\$150 00	\$150 00
N. A. Eckart, assistant engineer, January salary	125 00	125 00
J. H. Wilkins, superintendent of construction, January salary	100 00	100 00
H. Harrison, locomotive engineer, January salary	120 00	-----
P. S. Brown, assistant foreman, January salary	75 00	-----
O. Engle, subforeman, January salary	70 00	-----
R. Jones, subforeman, January salary	70 00	-----
Chas. Redding, subforeman, January salary	70 00	-----
P. H. McGrath, secretary Prison Directors, $\frac{1}{4}$ January salary	37 50	37 50
F. R. Collins, draftsman, 121 $\frac{1}{2}$ hours at 70 cents	85 65	-----
Totals	\$902 55	\$412 50

Two extra guards \$130 per month, making a total of \$1,225 per month. I am also informed that one half of Mr. Oliver's salary is paid from this fund. Leaving this item out, the total seems to be \$1,225 per month, or a total of \$14,700 per year. We think that this is altogether too much to be paid for this class of work, as you can readily see that in three or four years it amounts to quite a large sum. The question we ask is, would not one good foreman at about \$100 per month be all that is needed to accomplish the same results after Mr. Eckart, Sr., who, as we all know, is preeminent in his profession, has laid out the work?

We went over the jute bag situation slightly, and in the opinion of your committee, we believe that, so far as the Directors are concerned, everything is straight and right. The fault lies in the system of "first come, first served." We believe that this should be changed in some manner, so that every one who desires to avail themselves of the opportunity of getting bags should have an opportunity of getting their pro rata; however, this is now being looked into by a special committee, and we have no doubt but that it will be satisfactorily arranged. A committee of the guards made formal request that they be paid more salary, and while we believe that this should be left entirely in the hands of the Board of Prison Directors, we most respectfully recommend that arrangements be made that their salaries be raised, especially those who have families; however, we recommend that the appropriation for cottages to be used by the married men be allowed. As it is now, many of them live at some distance from the institution and have to pay an exorbitant house rental, leaving but very little to support and educate their children with. Mr. Oliver, the secretary of the board, locally in charge, also recommends that a small amount be set aside for a revolving fund that the officers and guards might avail themselves of the low price of supplies, as the State is in a position to purchase these supplies at a far less price than an individual, therefore the State would lose nothing, and the men who are connected with the institution would be benefited in a marked degree. We wish to speak especially of the services of Mr. Oliver, as

we find that he is especially qualified for the position he now holds, and is in close touch with the work of the institution.

Folsom.

We find that this institution is conducted in a much more satisfactory manner than the one at San Quentin. Mr. Yell, the Warden seems to be one especially adapted to this class of work. The discipline seems to be almost perfect.

The inmates, while they are required to work very hard, all appear to be well and hearty, and make no complaint as to their treatment. While the quarters are somewhat crowded, as at San Quentin, we find that there are too many confined in a cell, yet it is exceptionally clean, and the ventilation one of the things that is being looked to. The prisoners find no fault with their food whatever, and say that they have plenty of it and it is good and wholesome.

The hospital, run under the direction of Dr. Gladding, is conducted in a very satisfactory manner. Those who are so unfortunate as to be placed in this department, not only find one who is thoroughly competent to care for their ailments, but find a friend as well, and we congratulate the board on securing the services of such a physician.

The new criminal insane hospital seems to be progressing in a very satisfactory manner, it being constructed entirely by the inmates of the institution, but as this work and the work of the new prison wall will be completed within the next few years, the State must soon look towards finding other employment for the inmates. We believe that the authorities should take steps to install some new industry, as the prisoners must be kept busy at something. The suggestion by Warden Yell that the institution take up the manufacture of toys would seem to this committee to be a good recommendation and one worthy of some thought, as it in no way would affect the labor interests of the State when we bear in mind that the toys in this country are imported largely from foreign countries.

We wish especially to impress upon your minds the increasing need of a better parole system in this State. While we now have a parole law, we find that it is accomplishing but very little good, and that there are a large number of prisoners in the two institutions who are subject under the law to parole that for some unknown reason it is not being carried out. There is no doubt in the world that if this law was put into effect as it was intended, with the aid of a good parole officer whose duty it would be to look out for the interests of those under parole, as well as those who have completed their sentence, we would find many less prisoners in our penal institutions. The great number who are now doing second and third terms is no doubt due to the fact that upon their release from the penitentiary they are provided with a cheap suit of clothes that is well known to every detective and police officer in the State, who consider that they have done a wonderful thing to have captured an ex-con. With no position provided for them upon their liberation, and no place to look to for help, feeling the sting of the degradation in their own hearts, there seems to be little incentive for them to rise out of the depths into which they have descended, but with the assistance of one interested in the welfare of these men, we believe that positions could be provided for them before release, and in a very short time they would have found their way back into the world, thereby relieving the State of this enormous and growing expense.

We further believe that steps should be taken looking towards a modern reformatory for the younger element, such as is now in vogue in many of the Eastern States and Europe. We would suggest one of two things: either making Folsom a penitentiary large enough to accommodate the older and more hardened criminals and converting San Quentin into a reformatory, or that the Governor appoint a commission for the purpose of selecting a suitable location for this character of an institution.

All of which is very respectfully submitted.

LYNCH, Chairman.

MESSAGES FROM THE GOVERNOR.

Messages from the Governor were taken up and read as follows:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, March 8, 1907.

To the Assembly of the State of California:

I have the honor to return to your honorable body without my approval Assembly Bill No. 439—An Act to regulate the sale of poisons in the State of California, and providing a penalty for the violation thereof.

This is a companion measure to Senate Bill No. 431, which I have already approved.

The two bills are identical, and it is therefore unnecessary to approve this measure.

J. N. GILLETT,
Governor of the State of California.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, March 8, 1907.

To the Assembly of the State of California:

I have the honor to return to your honorable body without my approval Assembly Bill No. 506—An Act to amend an Act entitled "An Act to establish a uniform

system of county and township governments," approved April 1, 1897, by amending Section 212 thereof, relating to the compensation of officers of the fifty-fifth class—and give the following reasons therefor.

This is an Act, as its title suggests, to amend certain sections of the County Government Act. As the same section is embraced within the general codification plan presented by the Code Commissioner, and to prevent a duplication of this section and encumbering the statutes with useless laws, I return this without my approval.

J. N. GILLETT,

Governor of the State of California.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, March 8, 1907.

To the Assembly of the State of California:

I have the honor to return to your honorable body without my approval Assembly Bill No. 460—An Act to amend an Act entitled "An Act to establish a uniform system of county and township government," approved March 1, 1897, and amended March 23, 1901, by amending Section 203 thereof, relating to the compensation of officers of counties of the forty-sixth class—and present the following reasons therefor.

As the title indicates, this is an amendment to the County Government Act, and I am informed that the same provisions have been made in the general codification of the County Government Act as presented by the Code Commissioner. This being true, should the said codification become a law this Act would be useless and of no effect.

I therefore return this bill without my approval.

J. N. GILLETT,

Governor of the State of California

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, March 8, 1907.

To the Assembly of the State of California:

I have the honor to return to your honorable body without my approval Assembly Bill No. 24—Entitled an Act to amend the Penal Code of the State of California by adding thereto a new section, to be known and designated as Section 602a, relating to the tearing down of fences and the opening of gates, bars, and fences and the hunting upon lands of another, and the killing, maiming, or wounding of any animal, and the leaving of camp fires burning or unextinguished—and present the following reasons therefor:

By an examination of this measure and a comparison of the same with existing statutes, we find that all the provisions thereof are contained in Subdivisions 8 and 9 of Section 602, Penal Code, Section 384a, 384b, 384c, and Section 597, also of the Penal Code.

As these are already existing laws, the enactment of the proposed Section 602a would serve no good purpose and would tend to cause confusion.

J. N. GILLETT,

Governor of the State of California

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, March 8, 1907.

To the Assembly of the State of California:

I have the honor to return to your honorable body without my approval Assembly Bill No. 310—An Act to amend Section 5 of "An Act regulating the employment and hours of children: prohibiting the employment of minors under certain ages; prohibiting the employment of certain illiterate minors; providing for the enforcement hereof by the Commissioner of the Bureau of Labor Statistics, and providing penalties for the violation hereof," approved February 20, 1905—and present the following reasons therefor:

Under the present law minors are permitted to be employed in agricultural, horticultural, and viticultural or domestic labors during the time the public schools are not in session, or during other than school hours.

By the proposed amendment the word "horticultural" is stricken from the Act. I am satisfied it was the intention of the legislators to permit children during vacation time to work at horticultural pursuits, but through some error in the Act the word "horticulture" was unintentionally omitted.

The purpose of this Act was to extend the privilege of following these particular avocations, rather than further restricting such privilege, yet the Act itself produces an entirely opposite result.

For this reason I withhold my approval of the same.

J. N. GILLETT,

Governor of the State of California.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, March 8, 1907.

To the Assembly of the State of California:

I have the honor to return to your honorable body without my approval Assembly Bill No. 3—An Act to amend Section 162 of an Act entitled "An Act to establish a uniform system of county and township government," approved April 1, 1897, and amended March 19, 1903, and amended March 20, 1905, by adding Subdivision 19 thereto—and present the following reasons therefor:

As the title indicates, this is an amendment to the County Government Act, and I am informed that the same provisions have been made in the general codification of the County Government Act as presented by the Code Commissioner. This being true, should the said codification become a law this Act would be useless and of no effect.

I therefore return this bill without my approval.

J. N. GILLETT,
Governor of the State of California.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, March 8, 1907.

To the Assembly of the State of California:

I have the honor to return to your honorable body without my approval Assembly Bill No. 544—An Act to amend an Act entitled "An Act to provide for work upon streets, lanes, alleys, courts, places, and sidewalks, and for the construction of sewers within municipalities," approved March 18, 1885, by amending Sections 3, 5, and 12 thereof, and by adding thereto a new section, to be known as Section 3½, providing for petitions of remonstrance and written objections, hearings thereon, and the determination thereof by the city council—and present the following reasons therefor:

This is an Act, designed to make certain amendments to the Street Improvement Act of 1885, commonly known as the Vrooman Act. Under the law, as it exists in the present Vrooman Act, it is the privilege of the protesting property owner, when he feels that any substantial rights he may have are being violated by the improvements contemplated, or by the proceedings taken by the city council or any of the municipal officers charged with the performance of the work, to enter a protest before the city council, setting forth his reasons and stating his objections to the proceedings taken. Should the council deny his protest and proceed with the work, the property owner has the right to present his objections to the court.

Under the proposed bill it is the design to compel the property owner to make his protests to the council at each step of the proceedings, and should he fail to make such protests he is concluded thereby; or, should he make such protest and the council determine in its wisdom that the protest is not well taken, such order of the council is deemed, under the proposed law, to be conclusive.

The object of this Act, as shown by the amendments therein contained, is to absolutely prevent the property owner from appearing in court and setting forth therein the reasons why he deems the proceedings taken to be erroneous.

Were this Act passed, it would be the duty of the property owner to protest to the council against the proceedings of that body, and when the council has made its order determining that such proceedings are not erroneous, no right of appeal is given and the property owner is forever precluded from further relief.

It seems to me to be most unwise to give the council both the right to take the proceedings and then pass upon their validity. It permits them to act and to be the judges of the legality of their own acts, and under this law, no matter how erroneous or illegal their acts might be, having determined them to be legal, the property owner has no remedy, but is compelled to forever hold his peace.

As a rule, members of a city council have little knowledge of the law and are compelled to rely in a great measure upon the advice of their attorney. Should this attorney give erroneous advice to the council—advice which he would subsequently find was not law, he could cure the illegality of the proceedings by advising the council to hold that their proceedings under such erroneous advice were, in fact, legal.

It would produce this peculiar condition, that having taken an illegal step, the council could cure the illegality of its proceedings by illegally declaring such illegal step to be legal.

I do not believe that it is right or proper to give to a non-judicial body the right to be ultimate judges of the legality of its own proceedings, and for this reason I return this bill without my approval.

J. N. GILLETT,
Governor of the State of California.

Bill ordered transmitted to the Senate.

Messrs. Otis and Strobridge asked for and were granted unanimous consent to file, and have printed in the Journal, the following protest against the passage of Senate Bill No. 811:

MR. SPEAKER: We, the undersigned members of the Assembly from the County of Alameda, do hereby protest against the action of the Assembly on Senate Bill No. 811, commonly known as the County Government Bill, and state our grounds as follows:

The bill as originally prepared was a codification of the various laws relating to the county governments and correctly contained the laws now in force. Since its preparation it has been so amended as to increase the salaries of many of the Alameda County officials, and to add many deputies and other employes, the latter being designated by various names with the admitted object of making the appointments lawful.

Two years ago the salaries of our county officials were adjusted by the Legislature, and the sums then fixed were supposed to continue in force for a long time to come, at least until January, 1911, so far as the same applied to counties of the third class, which then and now embraces the County of Alameda only.

After the San Francisco disaster, and only two months before the present session of the Legislature, we passed through a political campaign, wherein numbers of men struggled desperately to get these offices at their present salaries. Evidently they were satisfied with them then, and we submit that it ought not to be a hardship to hold them to the bargain that was at least implied. Nothing whatever was said during the campaign about salaries, nor about the volume of work required to satisfactorily perform the duties of the offices. We concede that the work in some of the offices had increased, especially in the recorder's office, in the district attorney's office, in the tax collector's office and in the sheriff's office, but in our honest opinion we do not think it has increased in the other offices to such an extent as to justify the increases in salaries and employes allotted by this bill. The increase is out of proportion to the needs.

We beg leave to quote from the platform of the last Republican Convention of the County of Alameda, held in Oakland on the 8th day of September, 1906.

"Resolved, That we hereby pledge the candidates nominated at this convention to the highest efficiency in their respective offices, and the greatest economy possible to efficient public service.

"Resolved, That we condemn the needless extravagance of paying to a county assessor a salary equal to that of other officials and in addition thereto large commissions on poll tax and personal property tax collections unsecured by real property.

"Resolved, That we pledge our legislative delegation to amend the County Government Act reducing said commissions."

The present and proposed laws, as we make the computation, make the annual salary expense as follows:

	Present Law	Proposed Law.
County clerk.....	\$20,800 00	\$31,900 00
Biennial registration.....	2,350 00	6,750 00
Sheriff.....	20,500 00	28,600 00
Recorder and actual expense of copying documents.....	12,100 00	15,700 00
Auditor.....	8,800 00	14,400 00
Treasurer.....	6,600 00	8,400 00
Tax collector.....	12,500 00	16,200 00
Assessor.....	29,125 00	40,175 00
District attorney.....	14,100 00	20,400 00
Superintendent of schools.....	5,400 00	8,800 00
Two justices' court rooms.....		600 00
Totals.....	\$132,275 00	\$191,925 00
Proposed increase.....	\$59,050 00	

The assessor will also receive 6 per cent on all unsecured personal property taxes collected by him, and 15 per cent on all poll taxes. The judges will, if the bill be passed, receive an increase as mentioned below.

Many of the officials and deputies are personal friends whom we hold in the highest esteem. We believe, however, that we owe a higher duty to the people, and especially the taxpayers, of our county. The County of Alameda is already burdened with a high tax rate, one that has been constantly growing until it has become excessive. The rate of interest to borrowers on their loans is for this reason about two per cent per annum higher than in San Francisco. The cause appears manifestly to be in the expensive, though efficient, county government under which the county affairs are managed.

We especially call attention to the fact that our amendments relating to the 6 per cent commission on unsecured personal property and 15 per cent commission on poll taxes, all being in addition to the assessor's annual salary of \$4,000 per annum, were voted down by this Assembly.

It is extremely unfortunate that members of the Legislature have no way of ascertaining definitely the justice of proposed increases of salaries of the various county officials. There ought to be some way to submit these matters to freeholders' conventions held in their respective counties, or else the party conventions, either in their platforms or by resolution, should finally dispose of the matter, thus giving to the two houses of the Legislature much needed light upon so important a subject. Except by the adoption of some such course, the Legislature has absolutely no way of determining the needs of those offices.

We also call attention to the fact that this Assembly has passed a bill giving an additional judge of the Superior Court to our county, entailing a further annual expense of \$2,500 00 and possibly \$3,000.00 per annum, that another measure is pending by which the salaries of our superior judges will be increased \$2,500 00 and perhaps \$3,000 00 per annum; that if precedent has any weight, the expense for bailiff, clerk, court room, etc., of the new judge will impose another great expense upon the county, which expense, in the last instance that a new judge was appointed, amounted to about \$30,000 00.

While we wish to be just and fair to the incumbents of all our county offices, yet we do not feel that, in justice to our constituents, we can conscientiously support the proposed measure, and therefore protest against the same.

Respectfully,

FRANK OTIS,
EDW. K. STROBRIDGE.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, March 11, 1907.

To the Assembly of the State of California:

I herewith transmit to you for your most earnest consideration the following telegram, just received from the President of the United States, which is as follows:

WHITE HOUSE, WASHINGTON, D. C., March 10, 1907.

Hon. James N. Gillett, Governor of California, Sacramento, Cal

Action of Legislature reported in this morning's papers most unfortunate in effect upon my efforts to secure exclusion of Japanese laborers by friendly agreement, and if continued will probably render recent legislation of Congress for that purpose ineffective. Please secure suspension of further action until receipt of letter from me.

THEODORE ROOSEVELT.

It seems from the foregoing message that it would be very important that no action be taken at this time which will prevent our Government from entering into friendly relations with the Japanese Government, tending to the exclusion of laborers from that country.

I hope that the Assembly will give this matter very careful consideration, that no mistake at this time be made.

J. N. GILLETT;
Governor of the State of California.

Mr. Johnson of Sacramento moved that no action be taken relative to Japanese legislation during the remaining sessions of the Assembly.

Motion duly seconded, and carried.

Mr. Stanton moved that the notice of the action of the Assembly be immediately transmitted to the Governor.

REPORTS OF STANDING COMMITTEES—(RESUMED).

ON MINES AND MINING.

ASSEMBLY CHAMBER, SACRAMENTO, March 11, 1907.

MR. SPEAKER: Your Committee on Mines and Mining, to whom was referred Senate Joint Resolution No. 12—Relative to the creation by the Congress of the United States of a department of mines, with its head a member of the President's Cabinet—have had the same under consideration, and respectfully report the same back, and recommend that it be adopted.

ROOT, Chairman.

On motion of Mr. Root, Senate Joint Resolution No. 12 was taken up for consideration.

SENATE JOINT RESOLUTION No. 12.

WHEREAS, The mining industry is annually adding nearly two billions of dollars to the wealth of the United States, and is furnishing employment to more than half a million men directly engaged in the mining industry, as well as furnishing the material absolutely necessary to the employment of a still larger additional number of men, and

WHEREAS, The loss of life (being 3.53 per 1,000 in coal mining operations in the United States as against 1.35 per 1,000 in England) through a lack of proper precautions in mining operations, over which but little, if any, supervision is exercised, is a disgrace to the Government, from which the man is supposed to have greater consideration than the dollar, and

WHEREAS, The product of the mine, when exhausted, cannot be replaced; and

WHEREAS, The enormous waste of metal resources, through the application of unscientific methods of mining and treatment, and the enormously extravagant waste of fuel, through both carelessness and unscientific methods, is a menace to our future industrial growth; and

WHEREAS, The United States is the only English-speaking nation in which this important industry receives relatively such small consideration.

Therefore, be it resolved by the Senate and Assembly of the State of California, concurring jointly, That we urge upon the Congress of the United States the importance of the creation of a department of mines, with its head a member of the President's Cabinet, through which human life may receive protection, and the mineral resources may be conserved, and production increased through governmental control and the application of scientific methods; and

Be it further resolved, That a copy of these resolutions be forwarded to the Senate and the House of Representatives of the United States, and to each of our representatives in the United States Congress, and that the Governor of this State be instructed to communicate with the President of the United States, requesting his cooperation in bringing about the creation of a department of mining, through which the mining industry may receive that governmental recognition and assistance to which it is entitled as one of the two great productive industries of this country.

Upon invitation of the Assembly, Rev. P. H. Willis, Chaplain of the Assembly, addressed the Assembly as follows:

Mr. Speaker and Gentlemen of the Assembly. A little more than two months ago you elected me to the sacred office of Chaplain of this Assembly. At that time I had met only one of you number. Seventy-nine of you were strangers to me. We are no longer strangers. Coming here from the pineries of the north; from the orange groves of the southland; from the mountains of the east, and from countries washed by waters of the western sea, we have mingled together as brethren. I have felt a deep sense of responsibility to our Heavenly Father for both my personal and official influence upon you. I came to you not as a denominationalist, but as a minister of God. I trust my labors have not been in vain.

I thank you, gentlemen, for the kindness so uniformly extended to me, and the deference which you have shown to the office which I hold.

We are not all here. That draped desk yonder reminds us that one of our number has been called home; and now as we are about to separate, and as our lives will ever be refreshed by the memory of friendships formed here, may our hearts also be softened by a throb of sympathy for the bereaved ones.

And now while we appreciate the mutual obligation of brother to brother, let us all give thanks unto our loving Father in Heaven for his unfailing mercies.

PRAYER.

Prayer was offered by the Chaplain, Rev. P. H. Willis.

To the Assembly of the State of California

I have the honor to return to your honorable body, without my approval Assembly Bill No. 586—An Act to amend Section 213 of the Penal Code of the State of California and to add a new section thereto, numbered 212a, relating to the crime of robbery and its punishment, and present the following reasons therefor:

The purpose of this Act is to make the crime of robbery when committed in the night-time, or by means of a deadly weapon on other means likely to produce great bodily injury, punishable by death.

In all cases of robbery committed in the night-time or by the means mentioned in the proposed legislation, there is usually but one witness to the particular crime. That witness is the person upon whom the offense has been committed. As long as that witness lives, the person committing the offense knows that his life is in jeopardy. Under the proposed legislation, should he kill that witness he would suffer no greater penalty for such murder than for the mere commission of the robbery. The natural result would be that whenever a robbery is committed under such circumstances, the first and natural impulse of the robber would be to remove from existence the person upon whose testimony the conviction must rest. In other words, the safety of the robber from punishment depends upon his killing his victim, and I am inclined to the belief that were a law of this kind enacted, that while it would have a certain influence in deterring people from the commission of robbery, yet whenever such robbery was committed it would be almost invariably accompanied by the death of the person robbed.

The idea that I am attempting to maintain in this message has been upheld by the history of penal legislation at all times, and in this connection I can not do better than to quote to you an extract from Blackstone's Commentaries, volume 4, page 18, which illustrates the idea very fully. It is as follows:

"Where men see no distinction made in the nature and gradations of punishment the generality will be led to conclude that there is no distinction in the guilt. Thus, in France, the punishment of robbery, either with or without murder, is the same; hence it is, that though perhaps they are therefore subject to fewer robberies, yet they never rob but they also murder. In China, murderers are cut to pieces, and robbers not; hence in that country they never murder on the highway, though they often rob. And in England, besides the additional terrors of a speedy execution and a subsequent exposure to dissection, robbers have a hope of transportation which seldom is extended to murderers. This has the same effect here as in China, in preventing frequent assassination and slaughter."

To the Assembly of the State of California:

I have the honor to return to your honorable body, without my approval, Assembly Bill No. 462—An Act to amend Section 443 of the Political Code, relative to State school tax.

The purpose of this bill is to raise \$440,917 per year or \$881,834 for the next two fiscal years, to be used in the payment of teachers' salaries. It is claimed that the salaries paid to teachers is too low, and perhaps this is true, but it seems to me that there are other ways to meet this difficulty without increasing the amount which is now raised annually by the State for that purpose. A law has already been enacted this session providing that all State money and not less than sixty per cent of the county money shall be applied exclusively to the payment of teachers' salaries of the primary and grammar schools.

This should give some relief in increasing salaries. Then, again, it seems to me that the Board of Supervisors of each county should, under Sections 1817 and 1818 of the Political Code, levy a tax sufficient to pay, with such aid as the State gives, reasonable salaries to their teachers. Section 1818 authorizes them to levy a tax to be known as the county school tax, the maximum rate of which must not exceed fifty cents on each one hundred dollars of taxable property. The average county rate throughout the State for the year 1906 was 26 cents on the hundred dollars—just a little more than one half of the amount which, under the law, the Boards of Supervisors are authorized to levy.

Now, if the State should appropriate about \$500,000 more than the present law provides for, what assurances have we that the Boards of Supervisors of the several counties of the State will not take advantage of it, and reduce the tax levy in their respective counties? This they can readily do, and perhaps will do, if they are of the opinion that the salaries being paid to their teachers are sufficient, and if they are of the opinion that the salaries paid are too low, then there is no reason why they should not increase the tax levy.

I am of the opinion that the proper place to look for an increase of salaries is from the counties where the teachers are employed and not wholly from the State.

Then, again, we find this year that the State is called upon to meet many necessary demands. If Assembly Bill No. 462 becomes a law and we increase the salaries asked for by the different offices, commissions and institutions in our State, we will have to increase our general appropriation bill about \$1,200,000. This is a large sum for the increase of salaries and wages alone, and I can not see my way clear in looking after the interests of the taxpayers of the State to allow the same, especially while we are carrying the burdens we are now.

Therefore I deem it my duty at this time to veto Assembly Bill No. 462.

J. N. GILLETT,
Governor of the State of California.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, March 12, 1907.

To the Assembly of the State of California:

I have the honor to present to your honorable body that yesterday I forwarded to the President of the United States a telegram of which the following is a copy:

"SACRAMENTO, March 11, 1907.

"Hon. Theodore Roosevelt, President of the United States, Washington, D. C.

"A bill is now pending in our Legislature to submit to the voters two years from now the question as to whether or not Japanese labor shall be excluded from this country. Will the passage of this bill interfere with any of your plans or make it more difficult for you to accomplish what you have undertaken to do in the way of Japanese exclusion? Please answer at once, as our Legislature is desirous of knowing concerning it.

"JAMES N. GILLETT,
"Governor of California."

In reply to this telegram I received from the President the following message:

"THE WHITE HOUSE, WASHINGTON, D. C., March 12, 1907.

"Hon. James N. Gillett, Governor of California:

"I thank you for your kind and prompt attention to my request. Passage of a bill for submission to voters of California whether Japanese laborers shall be excluded would interfere with my plans and make it more difficult for me to accomplish through the National Government what I am trying to do in the way of Japanese labor exclusion. The assumption of power by the voters of California to settle this question, if assented to by the National Government, would immediately end all my negotiations with Japan for friendly adjustment, because to negotiate a settlement we must have power to settle, while on the other hand California can not negotiate a treaty under the Constitution. It is, however, perfectly clear that under the Constitution only the National Government can settle the question of exclusion and such vote of California as is proposed would have to be treated as entirely nugatory while it would probably be regarded by those opposed to exclusion as a threat to ignore the constitutional power of the United States and exclude Japanese in defiance of their treaty to come in. I earnestly deprecate the passage of any legislation affecting the Japanese. The National Government now has the matter in hand and can in all human probability secure the results that California desires, while at the same time preserving unbroken the friendly relations between the United States and Japan. I have the interests of California most deeply at heart. I shall strive to accomplish for California as for every other State or section of this country everything that can conserve its honor and its interest. Any such action as that you mention would merely hamper the National Government in the effort to secure for California what only the National Government can secure.

"THEODORE ROOSEVELT."

I understand it is not the intention of the Legislature to pass at this session any measure whatever affecting the Japanese. I believe this to be excellent judgment on the part of the Legislature, because to do so, as suggested by the President, might interfere with and hamper the National Government in making proper treaties with Japan and bringing about the result which California desires, to wit, Japanese exclusion.

I forward this message of the President to you, because I desire that you shall know before adjourning the views entertained by him at this time upon this all-important question.

J. N. GILLETT,
Governor of California.
